

Surgical Safety and Staffing Protocols

1. Introduction

This document outlines the standard operating procedures for surgical staffing and resource allocation at City General Hospital.

2. Surgical Staffing Requirements

- Major Surgeries (e.g., Cardiac, Neuro): Minimum of 2 lead surgeons, 1 anesthesiologist, 3 OR nurses.
- Minor Surgeries (e.g., Appendectomy): 1 lead surgeon, 1 anesthesiologist, 2 OR nurses.
- Emergency Procedures: Rapid response team must be available within 10 minutes.

3. Resource Allocation

- Ventilators must be reserved for critical care units.
- PPE stock levels must be checked every shift.
- Surgical kits must be sterilized and prepared 2 hours before scheduled procedures.

4. Scheduling Guidelines

- Elective surgeries should be scheduled between 08:00 and 16:00.
- A 30-minute buffer is required between procedures for cleaning and prep.
- Staff shifts are 12 hours max, with a mandatory 10-hour rest period.
